NFIB-74.2/32
1 November 1978

MEMORANDUM FOR NATIONAL FOREIGN INTELLIGENCE BOARD

FROM : [REDACTED]
Deputy to the DCI for Resource Management
SUBJECT : The [REDACTED] Question

1. I realize that it is very late to circulate another paper for consideration at the NFIB meeting tomorrow, but I ask your indulgence because this one is particularly important. The DCI will want to hear your advice before deciding among the options it contains.

2. The Ad Hoc Working Group just completed its work today; therefore, Admiral Turner has not seen the paper yet. Although it addresses [REDACTED] that will be spend in FY 79, some of the options outlined in the paper contain significant implications for FY 80 and later years. You will undoubtedly have ample opportunity to address the options after tomorrow, but it is essential that this subject at least be considered during discussion of the FY 80 Budget.
